PRINCIPAL'S MESSAGE

This has been the third of three history-making years in our Secondary Schools. This was the year that we were finally able to realize the completion of our new buildings--the new cafeteria, the shops, the swim center, the girls' gym, the new music rooms, and the administration building. You will recall that with new facilities we also experienced some inconvenience. Remember those pesky bells? Sometimes they would ring and sometimes not. Also there was a shortage of specially-milled lumber for the girls' gym floor, and we were months in getting into that facility. With all the delays and inconvenience, we did become the first class to enjoy these new facilities and no one will forget the newly-painted rooms, the fresh, beautiful landscaping, and the new kind of lunch atmosphere created by the cafeteria and court.

A greater and more important chapter was written by your class in that you were the first class to encompass all 9th graders in our city on one campus. With the addition of the former Willard students, we finally completed this year the Secondary Reorganization Program (Ramsey Plan) which was begun by the class which will be the seniors on the East Campus.

When you enter school this Fall, you will for the first time find that Sophomores, Juniors, and Seniors have attended West Campus. My challenge to all of you is to live up to the potential which you have shown during this past year. It has been our hope that your year at West Campus has served as an important first year of high school, but more important, we hope it has been a springboard to rich personal happiness.
